

JAMAICA HOUSE D.C.

Enhancing the quality of life,
promoting independence and self-sufficiency
while preserving Jamaican culture and heritage.

The Jamaican Community Service Center
will provide the following services:

- Cultural orientation
- Emergency assistance
- General information referral
- Immigration counseling
- Personal counseling
- Job counseling including resume/job search assistance
- Small and micro-business information
- Health care information referral including fitness and nutrition advice
- General educational programs and scholarship information, and
- Arts and craft presentations.

Marcus Garvey's lesson to us – race pride, the need for African unity; self-reliance; the need for black people to be organized and for rulers to govern on behalf of the working classes.

The Jamaican Community Center “Jamaica House” will be open to the entire community with a particular focus on students, new immigrants, youth and the elderly, and will offer services to allow the Jamaican immigrant community to more fully participate in and contribute to American society.

Project Phases	Description of Work
Phase I	Preparation of Feasibility Study
Phase II	Review & Ratification by Board and General Membership
Phase III	Acquisition/Site Control
Phase IV	Site Construction/Renovation
Phase V	Site Operation (10year period)

*“Ask how you can contribute to
or join the Building Committee”*

The major goal for the 2006–2008 Jamaican Nationals Association’s (JNA) is to establish a “home” for Jamaicans in the Washington Metropolitan Area. This “home” has been a JNA goal for years. JNA will pledge the first \$5,000 towards moving this goal to completion. JNA’s 2006–2008 Executive Board created a Building Fund Committee to assist with carrying out this vision. Contact us to find out how you can contribute to this effort.
